Deming Public School Building.

### SCHOOL OPENS.

Prof. Dickey and His Able Corps of Assistants Began Last Tuesday and Have Everything on Working Basis.

Many years ago, when Deming was little more than a tent city, her citizens determined to have a school that would be a credit to the town; with that idea in their minds they organized a school hired a teacher and began the work of maintaining an institution where the children of the town could be given the necessary preparation for their life work. For many years there was but little public money for the support of the work and various means were resorted to for raising the necessary means of sustenance. All these, whether subscriptions or public entertainments were responded to freely by the people, and the school was kept going the greater part of the year. Whatever the differences on other subjects the people were always a unit on the school question. The result of this earnestness is that from an early day the schools of Deming have been noted as the best in southwestern New Mexico, and have attracted many people from the country districts to our town each winter for the purpose of sending their children to these schools. During the past few weeks new furniture has been purchased and an additional room fitted up to accommodate the constantly increasing attendance. New branches of study have been taken up also in order to give an extra year's work for advanced scholars, thus the school keeps even with growth and development of the town.

This year the term opens under even more favorable conditions than usual. Prof. W. H. Dickey, who is in charge as principal is a highly educated man well fitted, both mentally and morally for the position. In an interview a few days ago he stated to the Graphic man that he expected to make a specialty of disciplin and thoroughness. In a further talk of the needs of the schools of today he said that he considered the teaching of English of primary importance and that in the average school it is often neglected to such an extent that many high school graduates can hardly read understandingly, this he said, is one point he always gives special attention. Among other things Prof. Dickey mentioned was the fact that there are quite a large number of young men and young women who are not going to school this he considers a great mistake as the extra studies which have been added to the course would make it an object to those even, who graduated last year.

The following is the enrollment for the first week, which from our own observation we think is nearly a third less than it should be, and doubtless much below what it will be in a few weeks: Room No. 1, Mrs. Smith teacher, 50; Room No. 2, Miss Hamn teacher, 50; Room No. 3, Miss Foster teacher, 50; Room No. 4, Spanish department, Miss Billingsley teacher, 35; Room No. 5, Miss Allen teacher, 43; Room No. 6, Miss Guiney teacher, 27; High school Prof Dickey and Prof. Duff, 26.

### Silver City Locals.

The Tawawa tribe of Red Men gave their first annual ball in Newcomb hall Thursday evening.

The cattlemen have their roundup at work over the country, and will be hard at it for the next month or more.

Mrs. Andrew B. Laird, who has been absent some months in Los Angeles, is expected to return to Silver City about the first of the month.

The improvements which are now under way at the United States Military sanitarium at Fort Bayard, when completed, will cost \$150,000.

The county treasurer is preparing the delinquent tax list for publication and will print the same within the next few weeks.

The weather in this section has been quite cool for several days past and the weather pronosticators are saying that it is going to be an early fall.

The gymnasium in connection with the local militia company and which has been closed during the summer will be thrown open again during the week.

Miss Lillian Rivers, who has been visiting friends in Silver City, returned last week to Los Angeles, where she is now residing with her parents.

Dr. Carl Hagen will leave during the latter part of the present month for Germany, where he will continue his medical studies, at the foremost German universities.

Robert Metcalfe, of the Mangus, who has been quite ill in this city, has gone to a sanitarium near San Francisco for treatment. He was accompanied by his sister, Miss Mollie Metcalfe.

A big gold strike is reported in the Cooney mine owned by the Mogollon Gold and copper company, in the Mogollon district. The ore was found at a depth of several hundred feet and is particularly important in proving that the values go down.

Mr. and Mrs. J. R. Kenyon, of Aguas Calientes, Mexico, are the guests of Mr. and Mrs. Chris. Peterson, in this city. Mr. Kenyon was formerly in the employ of the Silver City Reduction works here, and is just recuperating from a severe attack of typhoid fever.
